

Give your patients what they need, when they need it the most—for common seasonal complaints.

**New!**  
Twice the amount  
of Andrographis

# Andrographis Plus<sup>®</sup>

Aggressive Herbal Immune Support<sup>†</sup>

## Patient Benefits:

- ▶ Delivers a proprietary blend of Ayurvedic and Asian herbs to encourage healthy respiratory function.\*<sup>1</sup>
- ▶ Stimulates white blood cell activity for optimal immunity by delivering beneficial levels of concentrated andrographis extract.\*<sup>2</sup>
- ▶ Provides antioxidant and revitalizing properties by supplying amla, a vitamin-C rich fruit.\*<sup>3</sup>
- ▶ Encourages lung health by including a traditional blend of Chinese botanical extracts with over 300 years of documented use.\*<sup>4</sup>
- ▶ May encourage a positive response for common seasonal complaints.\*<sup>5</sup>

## The MetaBotanica<sup>®</sup> Method—Ensures Herbal Quality

- ▶ Selects premium herbs that encompass a full spectrum of plant actives.
- ▶ Verifies herb species through documentation that includes identity vouchers and certificates of origin.
- ▶ Guarantees no adulteration.

## NNFA GMP-Certified Manufacturing—Ensures Formula Quality

- ▶ Assays the product for low levels of heavy metals (e.g., lead, arsenic, cadmium, mercury) and possible pesticides.
- ▶ Ensures batch consistency for clinical success every time.
- ▶ Each plant identity confirmed through independent laboratory assays.

# Andrographis Plus®

Provide Your Patients with Scientifically Formulated Traditional Ayurvedic & Chinese Herbs for Aggressive Immune Support\*

## How Andrographis & Amla Fruit Work

Andrographolides, also known as diterpenic lactones, are the primary active ingredient in *Andrographis paniculata*. Research indicates that andrographolides stimulate an immune response to

release interferon and enhance the activity of the lymph system.<sup>6</sup>

**Amla Fruit** (*Emblica officinalis*), also known as Indian Gooseberry, is shown to enhance natural killer (NK) cell activity and antibody-dependent cellular cytotoxicity (ADCC). Additionally, amla fruit stimulates cells to secrete interferon.<sup>7</sup>

## Tradition Meets Science

### HERBAL WISDOM OF AYURVEDA & TRADITIONAL CHINESE HERBOLOGY

The ancient systems of Ayurveda and Chinese medicine come together to form a unique blend of andrographis and amla fruit, as well as a mulberry leaf and apricot kernel decoction. These herbs have been utilized for centuries in India, China, and Southeast Asia for their multiple health promoting properties.

**Metagenics brings these time-honored herbs to modern nutritional science with a combination of clinically effective levels of active ingredients for aggressive immune support and encouragement of healthy respiratory function.\***

## Formula

### Two tablets supply:

Andrographis Leaf Extract.....400 mg  
(*Andrographis paniculata*)

[standardized to 2.5%<sup>†</sup> (10 mg) andrographolide]

Amla Fruit 4:1 Extract .....200 mg  
(*Emblica officinalis*)

[containing a minimum of 30% (60 mg) tannins]

A 5:1<sup>††</sup> proprietary herbal extract blend of:.....400 mg

Adenophora Root (*Adenophora tetraphylla*), Apricot Seed (*Prunus armeniaca*), White Mulberry Leaf (*Morus alba*), Gardenia Fruit (*Gardenia jasminoides*), Soybean (*Glycine max*), Zhejiang Fritillary Bulb (*Fritillaria thunbergii*), Pear Fruit (*Fructus pyri*)

**Recommendations:** Take one to two tablets every two hours for 12 hours with unchilled water. Then take one tablet three times daily between meals for five days.

**Form:** 30 and 90 tablet bottles

<sup>†</sup> As part of 10% full spectrum andrographolides.

<sup>††</sup> Equivalent to 2000 mg raw, dried, unprocessed herbs.
